Progressions : Contemporary Masters of Solo Guitar

Throughout 2013, IMC pays homage to this most versatile and expressive of instruments; the guitar, with a series of live performances, bringing you a brilliantly eclectic line up of guitarists, each with something personal to say.

New Yorker Marc Ribot's extensive back catalogue includes six solo releases. He adds a new flavour to this Progressions Guitar Series when he plays The Sugar Club in March.

Since the 1980's he's kept good company across the musical spectrum, from Tom Waits and T Bone Burnett to John Zorn and Scorsese soundtracks. Live, it all distills into a road trip through Americana, filtered through a very personal sonic landscape.
