Private Investigations Installations fine arts / music / installation / expo 18 jan - 22 february
Gefundenes Fressen

From Belgium via Afghanistan to the Brazilian rain forest. The artists in the Private Investigations installation circuit don't shy away from crossing international borders. Equally they are totally unfazed by the challenge of working with very specific materials they have unearthed in order to create a new story with them.

open wednesday to saturday 11:00 to 18:00
