Europe Jazz Network's General Assembly 2013 + Young Nordic Jazz Comets + Norwegian Jazz Nights

Trondheim, Norway

September 12-15, 2013

Europe Jazz Network (EJN), founded 26 years ago in Ravenna, Italy, is a pan-European association of producers, presenters, and supporting organizations engaged in presenting and promoting the creative art form of contemporary jazz and improvised music. Its membership includes 89 organizations (festivals, clubs and concert venues, independent promoters, and national organizations) in 28 countries.

From Bari to Trondheim

Last year the Federation met in Bari in the Puglia region of South Italy for its twenty-fifth annual assembly. This year's assembly took place about 3300 kilometers north of Bari, in Trondheim, Mid Norway, organized by Midnorsk Jazzsenter. Jazz activities in Norway are spread among three regional zones (south, mid, north) which is not surprising given the extent of the country. Horizontally getting smaller half way up north, the mainland of Norway stretches from 13°N to 58°N at the western periphery of Europe. Driving from Kristiansand in the south to North Cape covers about 2,500 km, plus Norway has 50,000 islands off the coast, including the Arctic archipelago of Svalbard at 71°N.
